Vol. 51 #8

The Bay Area Republican Women (BARW) typically meets the fourth Wednesday of each month, excluding June and July. The purposes of BARW is to promote an informed electorate through political education, increase the effectiveness of women in the cause of good government through active political participation, and facilitate cooperation among Republican women of Texas, foster loyalty to the Republican Party and to promote its ideals, and work for the election of the Republican Party's nominees.

President's Message

Fellow Patriots,

Kudos to Harris County commissioners R. Jack Cagle and Steve Radack!

By skipping the meeting of Commissioners Court on Tuesday, October 8th they not only held off an unsubstantiated tax increase, but also caused the tax rate to revert to the "effective rate" or "no-new-revenue rate," which will keep county tax bills steady for Harris County residents!

Ladies, time and again it has been proven that your vote matters. Our so-called representative on Commissioners Court, Adrian Garcia, was all for the tax increase. We must vote him out!

Get involved ladies! The Red Wave's Coming – Be The Wave!

Elizabeth Lauzon, BARW President, 2018-2019

About Barbara Cargill

Barbara Cargill earned her undergraduate degree in education from Baylor University and a Masters of Science in Science Education degree from Texas Woman's University. Barbara has taught and shared science with children in the Dallas and Houston areas for over thirty years. She has received teaching awards such as the "Thanks to Teachers" National Excellence Award, the A. J. Sales Educational Award, and a National Audubon Society Award. Barbara was also nominated for the Presidential Award for Excellence in Science and Mathematics teaching and was a Science Teacher's Association of Texas Outstanding Teacher nominee.

As director of "Wonders of the Woodlands Science Camp", an outreach ministry of The Woodlands United Methodist Church, Barbara authors or co-authors every curriculum for which the program is so well known. She has presented teacher workshops for Conroe ISD, Region XI, and for many Science Teachers' Association of Texas Conferences and Houston Area Early Childhood conferences. She participated in the National Alliance of Business Education Symposium in Washington, D.C., as an honoree to study business and educational partnerships. Barbara also traveled to the International Science Fair as a teacher-sponsor for one of her students.

Barbara's interest in creative, hands-on learning for children and a love for science motivated her to found the Wonders of the Woodlands Science Camp program in 1995. With a team of 32 dynamic certified teachers and staff and a fantastic curriculum, the program attracts over 1,200 children each summer. Barbara is often asked about the secret to the program's success. The secret is really no secret at all! Put God's blessing and hands-on science together and you get a winning combination! Barbara also works closely with science teachers through in-services and consulting work. She loans the Science Camp discovery boxes and animals to local teachers. In area schools she leads Science Outreach Programs, usually with the Science Camp critters. Teacher trainings, birthday parties, and other science programs keep Barbara busy year-round.

In addition to her work in science education, Barbara is a sustainer with the Junior League of The Woodlands and was recently awarded their "Vision" Award. In summer 2014 she was inducted as a member of the Daughters of the American Revolution. She is especially proud of her patriot forefather, Micah Sill, and his sacrifice in our country's fight for freedom. Barbara also serves annually as a judge at the Science and Technology Science Fair in Conroe ISD. She is a PTA lifetime member honoree, having served on the PTA board every year that her boys were in school. Her "WOW! From the Heart" program arranges for animals to visit sick or hurting children. In 2013, Barbara was selected as the Exxonmobil Idita-rider in the Iditarod Ceremonial Start. Her main goal was to promote the benefits of science

THE ELEPHANT'S EAR

October 2019

www.barw.org

Vol. 51 #8

education throughout our state. The Iditarod Education website contains exciting, free lessons in math and science using the Iditarod Race as the theme. Of course a highlight was riding with an Iditarod musher for 14 miles behind a team of sled dogs! In 2015 Barbara received the Education Award from Interfaith of The Woodlands as well as recognition from Montgomery County Eagle Forum as a "Protector of truth in public education."

In addition to her work in science education, Barbara is honored to serve on the State Board of Education for over 1.6 million people in nine counties. On January 1st of 2005, Barbara was sworn in as a member of the Texas State Board of Education for a 4-year term. She has been re-elected twice and is now in the middle of her third term. She served as Governor Perry's appointee as Chair of the Board for the maximum 2-term limit from 2011-2015. Barbara was the first Chairman to be confirmed by the Senate since 2005. Recently she created the Student Hero Award which will honor students across Texas based on their character and selfless acts of kindness for other students. It is a great privilege to serve as a conservative voice in Austin for the children, parents, and teachers of Texas.

Barbara has been married to Terry Cargill for over 31 years. Barbara and her husband Terry have been married for 31 years and have three wonderful sons. Their twins are Blake (an investment banker in Houston) and Chase (an aspiring actor in Los Angeles), age 24, and Connor who is 22 (a UT Austin Longhorn majoring in International Business/Spanish). All three boys attended public schools in Conroe ISD.

Barbara with students at WOW! Science Camp, the science education program she founded 21 years ago (and still directs).

TFRW Convention at Moody Gardens, Galveston

Bay Area RW members wave after voting for District Director, Debbie Guitian Roan. Members pictured in back: Debbie Guitian Roan, Beverly Ferguson-Cooper, Elizabeth Lauzon, Carolyn Hopkins, and Susan Franklin. BARW members at Convention but not pictured: Olga Whittington, Edie Holland, Jean Raffetto, Glynnell "Gigi" Bunch, Connie Alexander, Bianca Gracia, and Dana McDonald.

Hats off to members of the Bay Area Republican Women who did a bang-up job representing our club at the Biennial TFRW Convention in Galveston! Serving on the Convention Host Committee were Debbie Guitain Roan, Convention Co-Chair; Decorations Committee, Elizabeth Lauzon; and Edie Holland, Information Booth. Not only did they take care of TFRW business, they also got a shot of inspiration from fabulous conservative speakers and Texas Republican officials.

Here are just a few of the speakers at Convention: John Solomon, Ken Starr, Steve Munisteri, Texas First Lady Cecilia Abbott, Nick Adams, Gov. Greg Abbott, Lt. Dan Patrick, RR Commissioners Christi Craddock and Ryan Sitton, Senators John Cornyn and Ted Cruz, and State Rep. Mayes Middleton.

Thank You from TFRW Decorations Committee Chair – Elizabeth Lauzon

The TFRW Decorations Committee provided decorations for the banquets and luncheons during the TFRW Convention. The theme was "It's Island Time Again" so we decorated the Moody Ballroom with lovely one-of-a-kind tropical floral arrangements.

This wouldn't be possible without the very talented **Janice Broussard** of the **Galveston Republican Women**. Janice created each of the exquisite centerpieces – all 87 of them! Thank you, Janice for donating your time and talent to making each of the arrangements. They were spectacular!

Special thanks also go to **Bay Area Republican Women** members **Carolyn Hopkins** and **Beverly Ferguson-Cooper** for helping to tend to the floral creations during the convention. A big a shout-out and "Thank You" also goes to our sisters in the **San Jacinto Republican Women: Tammie (and Keith) Neilsen, Dawn McDonald, Moriah Guthrie, Angelina Gooden, and Barbara Legler** for collecting donation envelopes and transporting the remaining center pieces to The Bridge Over Troubled Waters in Pasadena after the convention.

BARW Campaign Activities *Debbie Guitian Roan, Chair*

We are about 3 weeks from Election Day and approximately 1 week from early voting! GOTV is in high gear.

The Quote of the Season is: "NOBODY MADE A GREATER MISTAKE THAN HE WHO DID NOTHING BECAUSE HE COULD ONLY DO A LITTLE" Edmund Burke.

I just love that quote, because many of us feel embarrassed if we can only do 30 minutes of calling or 1 hour of block walking but think about the cumulative effect of that mindset. At only 1 call per minute (a very conservative estimate) that's 30 voters reached or not reached. If 10 people feel the same way that's 300 voters reached or not reached. Now multiply that by just 5 days a week that's 1,500 calls made or not made. Over the course of the next 3 weeks the impact would be HUGE!

I have checked the Harris Votes website (www.harrisvotes.com) and the sample ballot is available. We are voting on the 10 Proposed Texas Constitutional Amendments, for Mayor of Houston, Houston City Council all districts, all At-Large Positions, and a Houston Metro Bond. Below are the important dates with respect to voting. I have also included in this newsletter information sent out by our own Dist. 129 State Rep. Dennis Paul listing the Constitutional Amendments with a brief explanation of each. Be an informed voter!

Remember a "Yes" vote on Proposition 4 means a ban of the imposition of a state income tax.

Also, remember you can vote at any polling location on election day.

Fellow members, this is where the "Rubber meets the Road". One of our most important functions as a Republican Woman's Club is to promote an informed electorate and to VOTE! Educate your friends and neighbors on why you support the candidates and issues you do and then get them to the polls. It does no one any good to support Republican candidates and ideals if we don't vote. Elections aren't won by good intentions; they are won by those who get their voters to the polls. So, Let's Get 'er Done!

IMPORTANT DATES:

October 21st First Day of Early Voting
October 25th Last Day to Apply for a Ballot by Mail
November 1st Last Day of Early Voting
November 5th Uniform Election Day

THE ELEPHANT'S EAR

October 2019

www.barw.org

Vol. 51 #8

Constitutional Amendments:

PROPOSITION 1: "The constitutional amendment permitting a person to hold more than one office as a municipal judge at the same time."

Current law allows for an appointed municipal judge to serve as a judge in more than one municipality. In municipalities where the judge is elected, however, a judge may only serve in one municipality. Voting YES for this constitutional amendment would create parity between appointed and elected municipal judges, so that both may serve more than one municipality. This proposition passed both the Texas House and Senate unanimously.

Serving as a municipal judge is often a part-time job in smaller municipalities, and these positions can be hard to fill by qualified judges. Voting YES for this constitutional amendment in November would make it easier for small cities and towns to find and retain qualified judges, ensuring that misdemeanor offenses are prosecuted, and search warrants are obtained in a timely fashion, having a positive impact on public safety.

PROPOSITION 2: "The constitutional amendment providing for the issuance of additional general obligation bonds by the Texas Water Development Board in an amount not to exceed \$200 million to provide financial assistance for the development of certain projects in economically distressed areas."

Created in 1989, the Economically Distressed Areas Program (EDAP) operated by the Texas Water Development Board (TWDB) provides financial assistance to projects where water and wastewater services do not meet minimum state standards. Since its creation, EDAP has provided over \$1 billion in loans to political subdivisions estimated to serve 400,000. In House District 62, the City of Whitewright has received \$6.3 million from this program.

The TWDB currently has constitutional authority to issue \$500 million in bonds; however, the program has reached its bond capacity and can no longer issue

THE ELEPHANT'S EAR

October 2019

www.barw.org

Vol. 51 #8

bonds for additional projects. Voting YES for Prop 2 would amend the Texas Constitution to allow the TWDB to issue bonds on an ongoing basis, as long as the total outstanding debt does not exceed \$200 million.

Voting YES for this constitutional amendment DOES NOT grant the TWDB an additional \$200 million but allows the agency to issue additional bonds. The legislature has already appropriated \$3.5 million over the next two years to TWDB for debt service payments on existing bonds. Capping the total outstanding debt at \$200 million will ensure that Texas does not take on an excessive amount of debt, while at the same time allowing for the state to assist local governments in providing one of the basic functions of government, water service.

PROPOSITION 3: "The constitutional amendment authorizing the legislature to provide for a temporary exemption from ad valorem taxation of a portion of the appraised value of certain property damaged by a disaster."

This amendment would allow the legislature to grant a temporary property tax exemption following a disaster declared by the Governor. Voting YES for this proposition would allow for property owners of damaged property to receive a temporary tax exemption if the legislature passed a law, without requiring a statewide election to amend the Texas Constitution. This proposition passed the Texas House and Senate unanimously.

Property owners struggling to rebuild damaged property should not have to pay taxes based on the value of the property before the damage. The owner of a \$300,000 home that is 50% damaged should not have to pay taxes as if their home is still worth \$300,000, as happened to some Texans after Hurricane Harvey. Voting YES would protect property owners from unfair taxes after any future disaster.

PROPOSITION 4: "The constitutional amendment prohibiting the imposition of an individual income tax, including a tax on an individual's share of partnership and unincorporated association income."

I am proud to be a coauthor of this legislation that allows for voters to constitutionally ban a future income tax in Texas. Currently, Texas does not have

THE ELEPHANT'S EAR

October 2019

www.barw.org

Vol. 51 #8

an income tax, but a future legislature could pass a general law with a majority vote to impose one. This law would then go to the Texas voters for approval.

Voting YES for this proposition would place a ban on an income tax in the Texas Constitution. If a future legislature chose to impose an income tax, they would have to pass another constitutional amendment to undo it, which would require a 2/3 vote of both the House and Senate, instead of a majority vote. Voting YES would further protect future Texans from the possibility of an income tax.

PROPOSITION 5: "The constitutional amendment dedicating the revenue received from the existing state sales and use taxes that are imposed on sporting goods to the Texas Parks and Wildlife Department and the Texas Historical Commission to protect Texas' natural areas, water quality, and history by acquiring, managing, and improving state and local parks and historic sites while not increasing the rate of the state sales and use taxes."

Currently, the sales taxes collected on sporting goods are collected and deposited in the state's General Revenue funds, along with sales tax collections on all other goods. Each session, the legislature then appropriates this money during the budget-writing process to the Texas Parks and Wildlife Department (TPWD) and Historical Commission (THC).

This proposition would constitutionally dedicate the sporting good sales tax revenue to TPWD and THC in perpetuity, ensuring that future legislators do not spend the funds elsewhere (as has been done in the past.)

Voting YES on Prop 5 will dedicate the existing sales tax revenue to our state's emergency response efforts and game warden operations, wildlife management programs, recreational opportunities, and state parks.

If this amendment passes, any time you purchase bicycles, hunting and fishing equipment, or exercise equipment, you can be assured the sales tax collections, estimated to be at least \$170 million per year, are going toward these state programs.

THE ELEPHANT'S EAR

October 2019

www.barw.org

Vol. 51 #8

PROPOSITION 6: "The constitutional amendment authorizing the legislature to increase by \$3 billion the maximum bond amount authorized for the Cancer Prevention and Research Institute of Texas."

In 2007 Texas voters approved the establishment of the Cancer Prevention Research Institute of Texas (CPRIT) to support institutions of learning and advanced medical research facilities in finding the cause of all types of human cancer and developing cures from lab research and clinical trials. Voters granted CPRIT the ability to issue bonds up to \$3 billion to fund cancer prevention research and trials. The current maximum bond authority will be reached by 2022, after which the Institute will no longer be able to issue bonds for additional research grants.

Voting YES for this constitutional amendment DOES NOT grant CPRIT an additional \$3 billion but allows them to issue additional bonds up to \$6 million. The legislature has already appropriated \$2.5 million over the next two years to CPRIT for debt service payments on existing bonds.

PROPOSITION 7: "The constitutional amendment allowing increased distributions to the available school fund."

In 1854 the Texas legislature created the Special School Fund (now called the Permanent School Fund or PSF), endowed with \$2 million from the federal government that Texas received in exchange for its claims on the territory of present-day New Mexico, Colorado and Oklahoma. The Constitution of 1876 permanently restricted the Fund's use to provide for public education.

Currently the PSF receives revenues from the sale and leasing of more than 13 million acres and other investments. The revenue from these investments is then deposited in the Available School Fund. Because greater investment returns have resulted in more revenue for the Permanent School Fund, this amendment would allow an increase from \$300 million to \$600 million the revenues that could be distributed to the Available School Fund each year.

Funds in the Available School Fund are then distributed to school districts annually through the school funding formulas. Voting YES for Prop 7 would increase the

THE ELEPHANT'S EAR

October 2019

www.barw.org

Vol. 51 #8

amount of Permanent School Fund revenues that would ultimately be distributed to our public schools.

PROPOSITION 8: "The constitutional amendment providing for the creation of the flood infrastructure fund to assist in the financing of drainage, flood mitigation, and flood control projects."

In 2013 in response to the 2011 drought, Texas voters approved a constitutional amendment creating the State Water Implementation Fund for Texas to finance projects that would ensure the long-term water supply of Texas through low-interest loans backed by the state.

Now, in response to Hurricane Harvey, the legislature unanimously passed this constitutional amendment that would create the Flood Infrastructure Fund to assist in financing drainage, flood mitigation, and flood control projects that are as equally vital to the infrastructure of our state as the water-planning projects.

This amendment is part of a package of legislation passed this session to address the recovery and long-term resiliency of Texas. Voting YES for Prop 8 would establish a much-needed statewide, cooperative effort to "future-proof" the state against future flooding disasters. If approved, the Fund would receive \$50 million in state funds to provide loans at or below-market rates to local governments to assist with basic flood project planning and engineering of flood mitigation projects.

PROPOSITION 9: "The constitutional amendment authorizing the legislature to exempt from ad valorem taxation precious metal held in a precious metal depository located in this state."

The Texas Constitution requires that all real and tangible personal property in the state be taxed in proportion to its value unless otherwise exempt. Voting YES for this proposition would allow for the legislature to pass a law exempting precious metals held in a commercial depository in Texas from annual property taxation, just as the household goods, personal vehicle, and personal property (including precious metals) held in one's home is exempt from property taxation.

THE ELEPHANT'S EAR

October 2019

www.barw.org

Vol. 51 #8

Without an exemption, local governments may attempt to impose annual property taxes on their residents' precious metals held in depositories, which could lead to confusion in the property tax system. A property tax exemption would also align with current Texas law that already exempts precious metals from the sales tax.

PROPOSITION 10: "The constitutional amendment to allow the transfer of a law enforcement animal to a qualified caretaker in certain circumstances."

Current state law prohibits law enforcement agencies from transferring valuable property to a private person or organization without payment. Valuable property may include police dogs and other law enforcement animals whose ownership could not be transferred free of charge upon the animals' retirement from service.

Voting YES for Prop 10 would allow for these animals to live with their handler or other caretaker upon their retirement, as determined by the head of the law enforcement agency. This proposition passed both the House and Senate unanimously and is widely supported by law enforcement agencies.

Urgent - Become A Republican Election Worker

Election workers are needed for precinct 0306 for Election Day on November 5th, 2019! Must be qualified voters in Harris County. One of the workers needs to be a Spanish speaker. Harris County requires that clerks go through some training, so if you are interested in taking part in the election process as an Election Worker, let me know ASAP so you can get set-up with the training. This is a paid position. Text me (Elizabeth Lauzon) if you are interested at 713 397 8270.

Caring for America Committee-Jean Raffetto

Thank you BARW and our guests. Thanks to those who donated to Bay Area Meals on Wheels at our September meeting. We collected only \$114.00. We have only the October meeting to collect for them again this year. I hope we/you will be generous as these shut-ins really need and appreciate our help. Please be generous with your donation as Bay Area Meals on Wheels' volunteers not only provide meals for shut-ins in the CCISD but sometimes they are the only people that the shut-ins see all day. They are a very dedicated group of people and many have been doing this for years.

Our donations at our combined November/December meeting, The Annual Egg Nog Party on December 11th will go the Fisher House which provides housing for families of wounded veterans. This is another well-deserved charity of BARW.

The VA Fisher House is a "home away from home" for families and patients receiving medical care within Michael E. DeBakey VA Medical Center. This facility is available free of charge to families of Veterans being treated for long-term illnesses.
