## REPUBLICAN WOMEN

TFRW Region XVIII, Texas Senate District 11

### President's Voice

Hello BARW!

Fall is in the air. The sweltering sun and downpours are beginning to come to an end. As the days grow shorter and temperatures drop, leaves will transform into a stunning array of hues of reds, oranges, yellows, browns and purples. I always look forward to the fall festivals in Houston, as well as hayrides and pumpkin patches. Decorating and preparing for Halloween, Thanksgiving and then Santa! Where has this year gone?

Fall is also the time to make those door-to-door canvassing efforts. But if that's not the route for you, don't worry. Phone banks, text banks, direct mail, and literature drops are all effective ways to get out the vote. You can also volunteer with the [Harris County Republican Party](#). The National Federation Of Republican has a [Campaign Committee](#) to sign up to make phone calls for President Trump. You can join [TRUMP Force 47](#). Trump Force 47 is the official army of volunteer neighborhood organizers working together to defeat Kamala Harris and the far-left liberal democrats. Join the [Cruz Crew](#).

There are many events happenings as well that you can attend. Here is the [HCRP Calendar of Events](#). Attending political events is a great way to network with like-minded individuals, build connections and engage in discussion. It also gives you the ability to mingle with elected officials to discuss concerns directly with them. I encourage you to volunteer and be engaged.

This IS the most important election of our lifetime. We will never recover if President Donald J. Trump is not elected. The future of our great nation is in our hands. Do not become complacent. Be vigilant and stay on course. We must win in November!

We are excited about our 31st BARW Lincoln Dinner. Our guest speaker is American Columnist, Commentator, Political Pundit - Guy Benson. Can I assume you have already purchased your ticket? You can make your reservations [HERE](#). Don't forget the importance of donating an auction item. The auction is a big part of our fundraising effort.

Our next luncheon meeting of BARW will be held on Tuesday, September 24th, at Bay Oaks Country Club. Our speaker will be [Jessica Hart Steinmann](#), General Counsel at America First Policy Institute and Former Trump Administration Senior Official at DOJ. Social begins @11:00 a.m. The meeting begins @12:00 pm. Lunch Costs \$29.00, payable at the door.

Get those RSVP's in by Friday, August 23rd @ [barw.rsvp@gmail.com](mailto:barw.rsvp@gmail.com).

**Let's Keep Texas RED!**

### Jessica Hart Steinmann

*General Counsel at America First Policy Institute, & Former Trump Administration Senior Official at DOJ*

Jessica currently serves as General Counsel & Director of Litigation for the America First Policy Institute, a think tank created by senior officials from the Trump Administration. In this role, she oversees the legal operations for the organization and also brings litigation that furthers the American way of life and protects our Constitution.

Previously, she served as a senior official for the Trump Administration at the Department of Justice (DOJ). She was appointed by President Trump as the Director for the Office of Victims of Crime at the DOJ where she oversaw nearly \$9 billion (funding financed by fines and penalties paid by convicted felons, not from taxpayer dollars). Her office provided the largest federal funding to combat domestic human trafficking. Before this role, she served as the Intergovernmental and Public Liaison for the DOJ. In this role, she was the primary liaison with governors, state attorneys general, state elected officials, law enforcement officials, and key stakeholders.

Additionally, Jessica served as Elections Committee Clerk & Counsel of the Texas House of Representatives in 2021 and helped draft SB1 (the election integrity law that the Democrats boycotted and fled to Washington D.C. in protest). She previously worked for U.S. Senator Ted Cruz, the Harris County Republican Party, and started her career as a commercial litigation attorney at Bracewell & Giuliani, LLP in Houston.

Jessica is very involved in her community. She was elected as the Texas committeewoman on the RNC platform committee in 2024 and was also selected as an at-large delegate for Texas for the RNC Convention in 2024. She currently serves as the President of The Woodlands Republican Women and is the Election Integrity & Ballot Security Chair on the Texas Federation of Republican Women's board. She previously served as the President of the Houston Young Lawyers Association and the Chair of the Houston Holocaust Museum's Next Generation Leadership Board. She was named a National Future 40 under 40 by MavPac in 2017 and 40 Under 40 in Texas in TFRW's inaugural class of awardees in 2023.

She graduated in the top of her class from Baylor Law School, where she also served as managing executive editor of the Baylor Law Review and was elected class president of her law school class all three years of law school. She attended undergrad at the University of Texas at Austin where she double majored in Finance and Business Honors Program with a minor in government. Jessica is married to Brandon Steinmann, Montgomery County Clerk and they have a 2 year old son Luke and another baby boy due in December.

## Caring for America

Your donations to Bay Area Meals on Wheels at our last meeting were \$248. Thank you very much. We only have two more times this year to collect for Bay Area Meals on Wheels, September and October.

Our combined November/December meeting .is our Eggnog Party usually held the first Wednesday in December. At that time, we collect for Fisher House, another good charity, that houses family members of injured or ill military men and women.

Let's try to hit the \$300 or \$400 mark this month. Thank you for your generosity.

Thanks,

### Over Ruled: The Human Toll Of Too Much Law

By Neil Gorsuch and Janie Nitze

**America has always been a nation of laws. But today our laws have grown so vast and reach so deeply into our lives that it's worth asking: In our reverence for law, have we gone too far?**

Over just the last few decades, laws in this nation have exploded in number; they are increasingly complex; and the punishments they carry are increasingly severe. Some of these laws come from our elected representatives, but many now come from agency officials largely insulated from democratic accountability.?

In *Over Ruled*, Neil Gorsuch and Janie Nitze explore these developments and the human toll so much law can carry for ordinary Americans. At its heart, this is a book of stories—about fishermen in Florida, families in Montana, monks in Louisiana, a young Internet entrepreneur in Massachusetts, and many others who have found themselves trapped unexpectedly in a legal maze.

Some law is essential to our lives and our freedoms. But too much law can place those very same freedoms at risk and even undermine respect for law itself. And often those who feel the cost most acutely are those without wealth, power, and status.

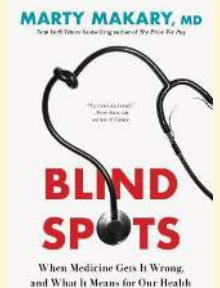

Deeply researched and superbly written, *Over Ruled* is one of the most significant books of the year. It is a must-read for every citizen concerned about the erosion of our constitutional system, and its insights will be key to the preservation of our liberties for generations to come.

### Blind Spots: When Medicine Gets It Wrong, and What It Means for Our Health

Dr. Marty Makary

**From Johns Hopkins medical expert Dr. Marty Makary, the *New York Times*-bestselling author of *The Price We Pay*—an eye-opening look at the medical groupthink that has led to public harm, and what you need to know about your health.**

More Americans have peanut allergies today than at any point in history. Why? In 2000, the American Academy of Pediatrics issued a strict recommendation that parents avoid giving their children peanut products until they're three years old. Getting the science perfectly backward, *triggering intolerance with lack of early exposure, the US now leads the world in peanut allergies—and this misinformation is still rearing its head today.*

*How could the experts have gotten it so wrong?* Dr. Marty Makary asks, *Could it be that many modern-day health crises have been caused by the hubris of the medical establishment?* Experts said for decades that opioids were not addictive, igniting the opioid crisis. They refused menopausal women hormone replacement therapy, causing unnecessary suffering. They demonized natural fat in foods, driving Americans to processed carbohydrates as obesity rates soared. They told citizens that there are no downsides to antibiotics and prescribed them liberally, causing a drug-resistant bacteria crisis.

When modern medicine issues recommendations based on good scientific studies, it shines. Conversely, when modern medicine is interpreted through the harsh lens of opinion and edict, it can mold beliefs that harm patients and stunt research for decades. In *Blind Spots*, Dr. Makary explores the latest research on critical topics ranging from the microbiome to childbirth to nutrition and longevity and more, revealing the biggest blind spots of modern medicine and tackling the most urgent yet unsung issues in our \$4.5 trillion health care ecosystem. The path to medical mishaps can be absurd, entertaining, and jaw-dropping—but the truth is essential to our health.

Public safety is a priority. However, while Chicago is far less populated than Houston, Chicago retains twice as many law enforcement officers. Money in Houston this year will not go to rarely-used bike lanes, but rather to fund cadet classes – six for police and five for fire. A brief question and answer session followed.
